Preface

Ville de Sainte-Anne-de-Bellevue adheres to the principles of reduction at the source, reuse, recycling, and recovery **(3R-V)** in order to prevent and reduce waste generation.

As part of the CMM's 2024–2030 Strategic Plan for Waste Management (PMGMR), the City must comply with the new provisions of this waste management plan.

Objectives:

The City is providing this new waste sorting guide to help you better understand how to separate waste, share best practices with you, and let you know about the resources available to you.

THE BLUE BIN – RECYCLABLE MATERIALS

Improve Collection to Recycle Effectively

Bac Impact - What to Put (or Not to Put) in the Recycling Bin

No need to memorize plastic numbers or recycling symbols anymore. The sorting guidelines for the blue bin are simple:

If it's a container, packaging, or printed material, it goes in the recycling bin. That's it.

Bac Impact is here to educate people on proper recycling practices and raise awareness about the impact of what we put in our recycling bins. By improving the contents of our recycling bins, we have a positive impact on the recycling system. If everyone does their part, all of Quebec society stands to benefit.

[Learn more about Bac Impact](#)

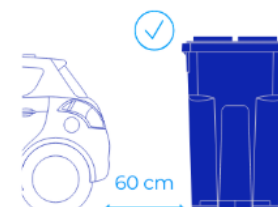

You may place your bin curbside starting at 7:00 p.m. the day before collection or before 7:00 a.m. on the day of collection to ensure it is picked up.

Return your bins to the side or back of your property as soon as possible after each collection, no later than 7:00 p.m. on the day of collection.

Regulations stipulate that your wheeled bins and trash cans cannot be stored at the front of your property. You must store them in an area not visible from the public right-of-way or conceal them behind a screen wall.

Comment bien utiliser le bac

- 
- ✓ 1 Placer le bac à 60 cm d'une auto, autre bac, borne fontaine, etc;
- 
- ✓ 2 Positionner le bac avec les poignées et les roues vers la résidence;
- 
- ✗ 3 Laisser le bac fermé;
- 
- ✗ 4 Éviter de surcharger le bac;
- 
- ✗ 5 Éviter de déposer des objets sur le couvercle;
- 
- ✗ 6 Dégager la neige déposée sur le couvercle;
- 
- ✗ 7 Neige ou pas neige, placer le bac afin qu'il soit visible et accessible pour l'opérateur.

Quoi mettre, ou ne pas mettre, dans le bac de récupération?

SAVIEZ-VOUS?

- Un contenant s'accompagne d'un bouchon ou d'un couvercle.
- Un emballage sert à transporter facilement un produit.
- Les contenants et emballages en plastique dégradables ne vont pas dans le bac. Ils contaminent les autres matières recyclables.

Contenants, emballages, imprimés. C'est tout.

EXEMPLES DE CONTENANTS ET EMBALLAGES

- ✓ Contenant de produit d'entretien ménager
- ✓ Emballage, pot et contenant de produit alimentaire
- ✓ Boîte de carton
- ✓ Assiette et papier d'aluminium
- ✓ Emballage de mets à emporter et préparés

EXEMPLES D'IMPRIMÉS

- ✓ Journal et circulaire
- ✓ Enveloppe
- ✓ Feuille de papier
- ✓ Cahier

LES EXCEPTIONS

- Emballages de protection en polystyrène ne vont pas dans le bac bleu: un point de collecte permanent pour le polystyrène est disponible dans le stationnement des Travaux publics et les aérosols ne vont pas dans le bac bleu: ils doivent être traités comme des résidus domestiques dangereux.

BONS COUPS

- Vider et rincer légèrement les contenants.
- Retirer les couvercles des pots et contenants – sauf pour les petits bouchons.
- Séparer les matières composant l'emballage (ex.: sac de céréales dans une boîte).
- Faire des boulettes de papier d'aluminium même si elles sont légèrement souillées avant de les mettre dans votre bac.
- Défaire et plier vos boîtes de carton.

NE PAS METTRE DANS LE BAC

- ✗ Pile
- ✗ Seringue
- ✗ Boyau d'arrosage
- ✗ Chaise de jardin
- ✗ Jouet
- ✗ Casserole
- ✗ Vêtement et tissu

THE BROWN BIN – ORGANIC MATERIALS

Give Your Food Scraps a Second Life

Accepted Materials

Food scraps (raw, cooked, or moldy)

- ✓ Fruits, vegetables, peels, pits;
- ✓ Meat, fish, bones, fish bones, seafood, and fat;
- ✓ Table scraps and expired food (without packaging).

Green waste

- ✓ Garden and vegetable garden waste;
- ✓ Leaves, grass clippings, and small twigs;
- ✓ Small roots, houseplants.

Other residues

- ✓ Paper towels, tissues, and paper soiled with food, newspaper.

Rejected Materials

- × Plastic bags (even those labeled as compostable or biodegradable);
- × Diapers, wet wipes, and plastic hygiene products;
- × Rocks, soil, gravel, and construction materials.

Recycling. Compost. Recycling center. With Ça va où?, you know where it goes!

Recycling, composting, ecocentre... not sure where to take your items?
With the “Ça va où?” app, easily find the right place for your everyday items!

1. Stay informed: Get valuable tips to help you adopt good waste management habits;
2. New, relevant content: Tips and tricks, short videos, and news to keep you informed on a variety of topics related to responsible waste management;
3. Geolocation services: Quickly view the locations of the nearest drop-off points and recycling centers, based on your current location or municipality;
4. Tablet-compatible: Access useful information anytime to help you sort your materials.

Simple, convenient, and free, the app is available in French and English:

<https://cavaouwebapp.recyc-quebec.gouv.qc.ca/>

For more information, visit the Recyc-Québec website:

THE BLACK OR GRAY DUMPSTER – HOUSEHOLD WASTE

Materials with no potential for reuse

Before collection: Place your bin at the curb the night before after 7 p.m. or before 7 a.m. on the morning of collection so you don't miss the trash trucks.

How: The bin lid must be completely closed. The 360-liter wheeled bin must not contain more than 90 kg (200 lbs) of household waste.

After collection: Move your bins back to the side or rear of your home as soon as possible after each collection, no later than 7 p.m. on the day of collection.

Regulations stipulate that your wheeled bins and trash cans cannot be stored along the street front. You must store them in an area not visible from the street or conceal them behind a screen wall.

THE BLACK OR GRAY TRASH CAN – HOUSEHOLD WASTE

Sofas and Mattresses

Residents can put out their upholstered items for pickup during household waste collection.

They can also be taken to a collection point equipped to receive this type of waste (recycling center) or to one of the two recycling companies in Montreal [MattCanada](#) or [Recyc-matelas](#).

Household waste must not contain:

- × Items accepted for recycling: containers, packaging, and printed materials;
- × Food scraps or compostable organic waste;
- × Household hazardous waste.

*Residents of the Terra housing project must place their upholstered furniture next to the semi-underground bins no later than 24 hours before the scheduled pickup date and notify the Public Works Department at 514-457-6844.

BROKEN, DAMAGED, OR LOST CONTAINERS

Since the modernization of the recycling program, ÉEQ has been managing the service contracts for the recycling bins.

- If your recycling bin (**BLUE**) ou food waste bin (**BROWN**) is broken, **you must submit a request directly to the City** to have it repaired or replaced free of charge.

Steps to follow to have your trash bin replaced:

- **Take photos:** provide visual evidence of the damage (crack, missing wheel, torn-off lid);
- **Find the serial number:** it is printed on the side or front of your bin;
- **Contact the City:** Submit your request on the Voilà portal. [Click here](#). You can call Customer Service at 514-457-5500 or the Public Works Department at 514-457-6844;
- **Response time:** Once the request has been submitted, Éco Entreprises Québec has a maximum of **20 consecutive days** to repair or deliver a new bin to your address.

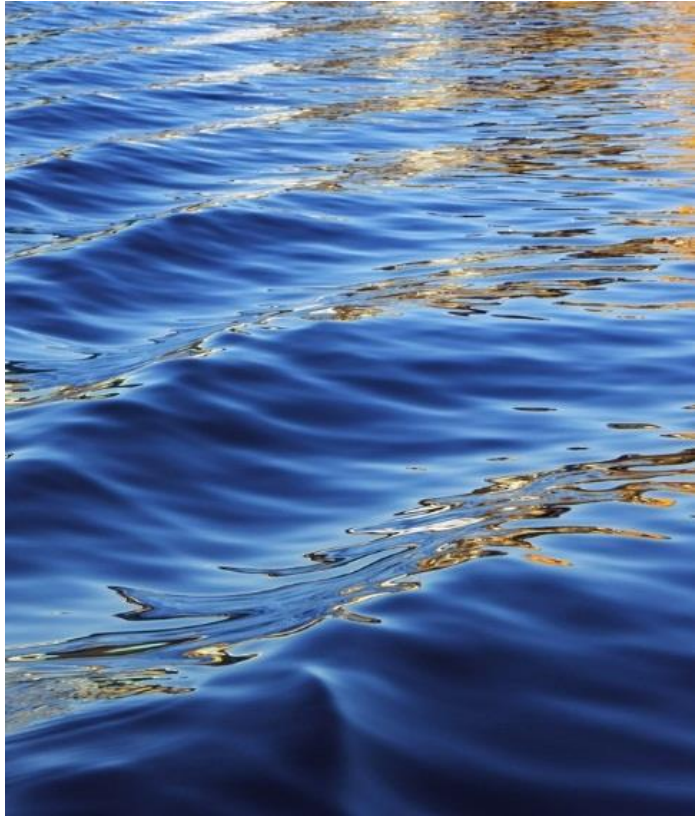

The black or gray wheeled bins used for household waste belong to residents, not to ÉEQ.

If your waste bin is broken, you are responsible for the replacement costs in accordance with the City's specific regulations.

For approved containers, please refer to Section 9 of Bylaw 890.

OTHER COLLECTIONS

Dead leaves and other green waste

Fallen leaves are primarily collected through the **weekly organic waste pickup (brown bin)** every Wednesday starting at 7 a.m.

Please note that blowing leaves into the street is prohibited. Warnings and fines will be issued to violators.

- As for green waste (such as grass clippings, flowers, plants, small branches, vegetable garden scraps, etc.), these must also be placed in the **BROWN BIN**.
- However, if you have excess waste—whether fallen leaves or green waste—it may be placed in compostable paper bags or cardboard boxes. **Plastic bags are strictly prohibited.**
- This rule also applies to buildings with five or fewer units that already have a collection service for green and food (organic) waste via the **BROWN BIN**.
- For more information, contact the Public Works Department at 514-457-6844.

Branches

Registration: This service is available year-round. No registration is required.

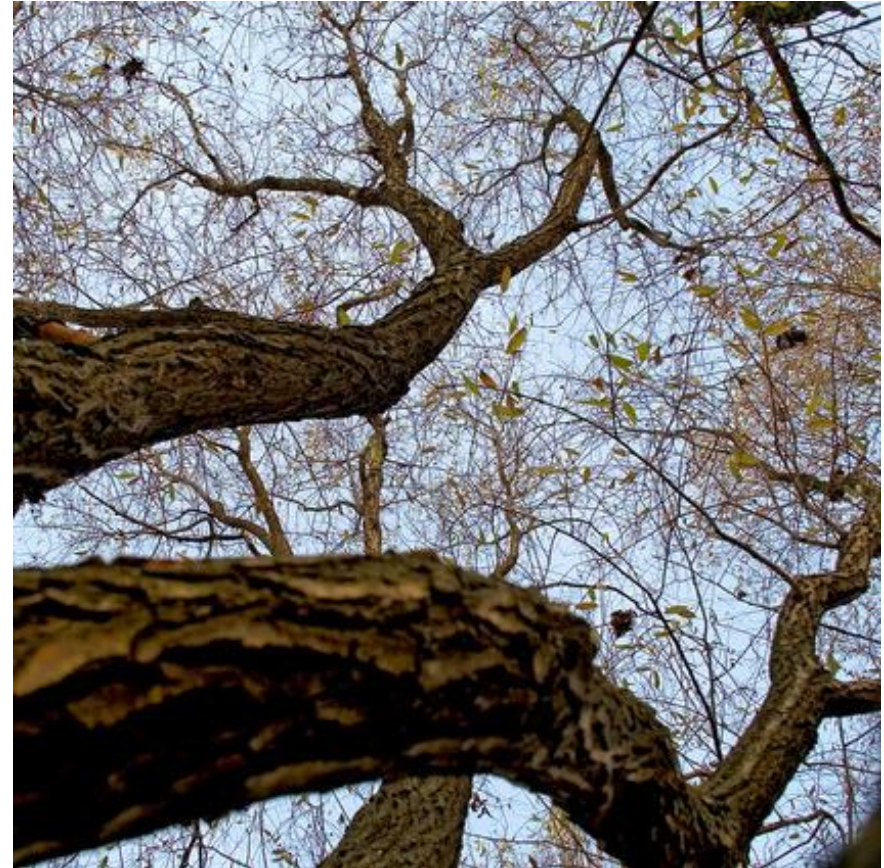

Schedule: Free pickup Monday through Wednesday **during the first and third weeks** of each month.

A fee of \$10 per m³ (minimum \$30) applies for any pickup outside the officially scheduled days.

Instructions: The truck will make only one pass down your street between Monday and Wednesday. Please place your branches curbside by Sunday evening before the collection.

Exclusions: Vines, stumps, logs larger than 22 cm in diameter, roots, and wood containing soil, metal, or rope are not accepted (due to the risk of equipment damage).

Contact: For any questions, contact the Public Works Department at 514-457-6844.

Christmas Trees

Collecting **natural** Christmas trees allows them to be recycled and turned into mulch, wood chips, or compost.

This helps prevent landfills from becoming overloaded and protects the environment..

- 🌲 Place it at the curb without tying it down or securing it;
- 🌲 It must be free of decorations;
- 🌲 It must not be placed in a plastic bag;
- 🌲 It may not be left on the street, on the sidewalk, or on a bike path, and under no circumstances may it obstruct traffic.

To find out the exact dates, you can check the city's municipal collection schedule: [Schedules](#)

Bulky Items

Bulky items are large, **non-padded items**.

These items are collected and recycled. The city collects them every two months; check the collection calendar for dates.

Accepted bulky items:

- ✓ Furniture (tables, chairs, sofas, filing cabinets, etc.);
- ✓ Large appliances;
- ✓ Bathroom fixtures (bathtubs, sinks, toilets, kitchen sinks);
- ✓ Other (water heaters, grills, bicycles, rugs).

Bulky items that are not accepted:

- × Upholstered items;
- × Tires;
- × Batteries;
- × Treated wood;
- × Construction waste;
- × Electronic products;
- × Household hazardous waste.

*Residents of the Terra housing project must place their bulky waste next to the semi-underground bins no later than 24 hours before the scheduled pickup date.

Construction and Renovation Waste

The Public Works Department can pick up your construction waste. There is a fee of \$65 per m³ (for a maximum of 3 m³, once a year, per property).

1. Items must be placed at the front of the property near the curb **before submitting your request.**
2. Then submit a request **via the [online request form](#)** to notify them, or contact the Public Works Department at 514-457-6844.

- ✓ Aggregates: concrete, brick, stone, asphalt;
- ✓ Wood: lumber, pallets, treated wood;
- ✓ Roofing materials: asphalt shingles;
- ✓ Interior finishes: gypsum (plasterboard), insulation wool.

Metals

Metal pickup upon request (*Residents only*)

How do I proceed?

- **Place** your items at the curb in front of your property;
- Then **submit** an online request or **call** the Public Works Department at 514-457-6844.

Accepted articles:

- ✓ **Appliances:** Stoves, refrigerators, air conditioners, toasters, etc.;
- ✓ **Equipment and furniture:** Filing cabinets, water heaters, furnaces, etc.

Please note: Tires and hazardous household waste (RDD) are not collected. Please drop them off at a participating retailer or at [the ecocentre](#).

Electronics Collection

- You are not allowed to throw your electronic devices in the household trash, as their components pollute the environment. You must dispose of them responsibly.
- The Public Works Department offers a free curbside pickup service exclusively for residents. Your old devices will then be recycled, reused, or disposed of safely..

How do I proceed?

- **Place** your items at the curb in front of your property;
- Then **submit** an online request or **call** the Public Works Department at 514-457-6844;
- For a list of accepted materials, visit the **ARPE-Québec** website [What Can I Recycle](#);
- [Electronic products NOT covered.](#)

Hazardous Household Waste

Household hazardous waste, also known as RDD, consists of **corrosive, flammable, explosive, and toxic** substances found in many products we use at home. These products are easily identified by labels featuring one or more of these pictograms. Syringes and fireworks are not accepted.

Items accepted at the Ecocentre:

- ✓ Paints, varnishes, and solvents;
- ✓ Used oil and filters;
- ✓ Pesticides and fertilizers;
- ✓ Mercury;
- ✓ Batteries and automotive batteries (lead-acid);
- ✓ Cleaning and maintenance products;
- ✓ Swimming pool chemicals;
- ✓ Small propane tanks;
- ✓ Fondue fuel;
- ✓ Aerosol cans.

The two nearest ecocentres are:

- **Saint-Laurent Ecocentre** : Open Tuesday through Sunday, from 8 a.m. to 6 p.m. Closed on Mondays.
- **LaSalle Ecocentre** : Open Tuesday through Sunday, from 8 a.m. to 6 p.m. Closed on Mondays.

To dispose of these materials responsibly, find the drop-off location nearest you using the mobile app [Ça va où?](#).

Hazardous Household Waste – Drop-off Locations

Rechargeable batteries (Ni-CD, Ni-MH, Li-ion, Pb)

- Sainte-Anne-de-Bellevue City Hall
- Sainte-Anne-de-Bellevue Library
- Chalet Peter-Williamson
- Hardware stores
- Electronics stores
- Ecocentres

Non-rechargeable batteries (AAA through D, alkaline)

- Sainte-Anne-de-Bellevue City Hall
- Sainte-Anne-de-Bellevue Library
- Peter Williamson Chalet
- IKEA
- Ecocentres

Paints (latex, alkyd, enamel), stains, lacquers, primers, rust inhibitors, varnishes, aluminum paint, acrylic sealant, wood preservative, linseed oil.

- Submit a request using the [online request form](#) or contact the Public Works Department at 514-457-6844.
- Hardware stores and home improvement centers
- Ecocentres

Motor oil, empty containers, and filters

- Sainte-Anne-de-Bellevue Municipal Garage
- Canadian Tire Stores
- Ecocentres
- Locator: [Soghu/locator](#)

Where can you drop off your tires?

Most auto repair shops and tire dealers will accept your used tires, often as part of provincial recycling programs (such as the program administered by Recyc-Québec).

Ecocentres and other collection sites

An agreement has been reached between the Ville de Sainte-Anne-de-Bellevue and Ville de Kirkland to allow residents of Sainte-Anne-de-Bellevue to dispose of **polystyrene packaging materials** at Ville de Kirkland's waste collection yard.

Please follow the polystyrene disposal guidelines listed on [Ville de Kirkland's website](#):

- **Kirkland Municipal Court** : Recycling bins for polystyrene, accessible at all times. 25 Rue Claude-Jodoin, Kirkland, Quebec H9H 4R9
- **Saint-Laurent Ecocentre** : Open Tuesday through Sunday, from 8 a.m. to 6 p.m. Closed on Mondays. 3535 Rue Sartelon, Montreal, Quebec H4R 0K5
- **LaSalle Ecocentre**: Open Tuesday through Sunday, from 8 a.m. to 6 p.m. Closed on Mondays. 7272 Rue Saint-Patrick, Montreal, Quebec H8N 2W7

To find out about all the recycling centers, visit [Ville de Montreal's website](#).

Metropolitan Waste Management Plan | PMGMR

Did you know that in 2020, 75% of the organic waste generated in Greater Montreal—more than 900,000 metric tons—was sent to the regular trash instead of being recycled?

That's a huge amount... but it's also an opportunity to take action!

In the City of Sainte-Anne-de-Bellevue, we're doing our part by recycling organic waste.

By sorting your food scraps and using the brown bin, you're directly helping to reduce the amount of waste sent to landfills and giving these materials a second life as compost. Every little bit counts and brings us closer to our goal of recycling 70% of organic waste by 2030.

Together, let's change our habits for a more sustainable future.

For more information, [visit the Montreal Metropolitan Community website.](#)

A Closer Look at the 3RV

Withholding Tax

- ✓ Reducing waste at the source helps us use fewer resources and generate less waste. That's the ideal!
- ✓ There are several ways to do this, but the key is to avoid disposable products, avoid buying things you don't need, and choose items with as little packaging as possible (hello, bulk shopping!).

Reuse

- ✓ Reusing a product many times, with little or no modification, is called reuse;
- ✓ A plastic grocery bag can be used to carry your lunch to school or as a trash bag. Using reusable items such as cloth snack bags, utensils like the ones you use at home, washable and reusable containers, or a reusable water bottle instead of a disposable one are other excellent **eco-friendly practices** that promote reuse.

A Closer Look at the 3RV

Recycling

- ✓ When we collect waste, process it, and reintroduce it into the production cycle to make new products, we are recycling. In other words, we use recovered material rather than raw materials to produce a new item.

Valuation

- ✓ When we choose to send waste somewhere **other than the trash can**, we're making a decision to recycle;
- ✓ This term refers to the various ways we can prevent our waste from ending up in landfills. The most common methods are reuse, recovery, recycling of residual materials, and composting.
